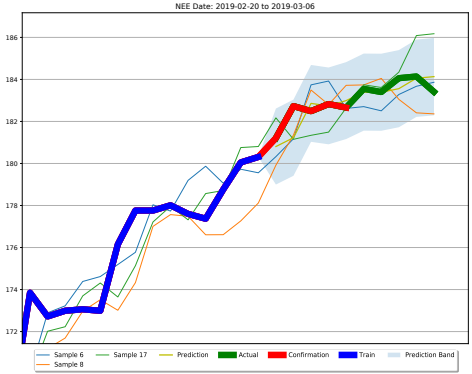
The Problem

1. Stock traders, particularly those **with swing trading style**, need **solid & accurate technical analysis**.
2. Furthermore, for ordinary traders, technical analysis is cumbersome and it is not easy to interprete.

The Solution

Vezpal with Fundamental analysis, Technical analysis, and AI & Deep Learning Technology helps swing stock traders to invest with more confident, as this technology can give **simpler suggestion** with **better accuracy** than the ordinary technical analysis.



Which STOCK to Buy

What is the Buy Price

When to Take Profit

The Market Size

1. **In 2009**, there was 60 million US families own stock. Now, trading stocks is easier and simpler, anybody around the globe can trade the US stocks.
2. **For 2020**, let's assume there are 70 millions traders internationally, which are our potential customers.

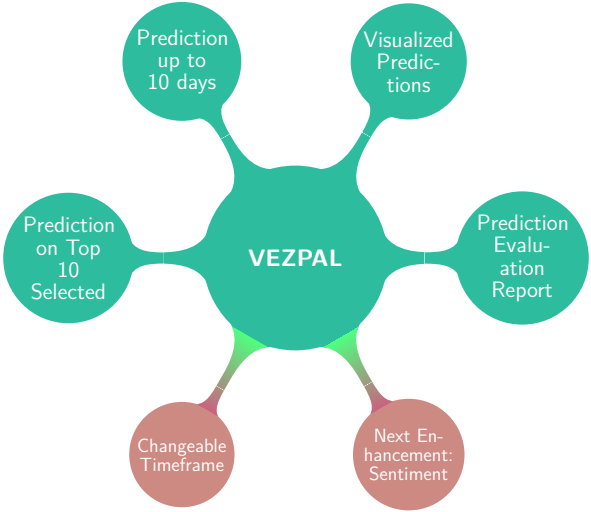
Business Model

Vezpal

Freemium: FREE for 1 month, than 10 USD /month

Feature & Next Enhancement



Use of Funds

1. Need to Upgrade HARDWARE to speed up Optimization Process
   - Optimization is done in the confirmation phase.
   - For one stock, the processing time using the exingting hardware is ψ minutes *(not optimized)* and φ minutes *(optimized)*
   - Hence, for the next step (Commercial Trial), the Hardware Upgrade is definitely needed.
2. Customer Relation & Online Digital Marketing.
   - Customer Relation System (Landing pages website, Mailchimp, Memberful)
   - Digital Marketing (FB/IG/Twitter Ads, Google Ads, etc.)
   - Copywriting
   - SEO

Benchmarked Stock

Tested Stock Market:

1. MA: Mastercard Inc.
2. CMCSA: Comcast Corporation.
3. SHOP: Shopify Inc.
4. XAR: SPDR S TR/S&P AEROSPACE & DEF.
5. NEE: NextEra Energy Inc.
